BIOE 400: Bioengineering Senior Design

Course Term and Year: Fall 2023  
Course Duration: Full semester  
Meeting time: Tuesdays, Thursdays 8:00 – 9:20 AM  
     Biweekly meetings with teaching staff will be assigned once groups and projects are assigned. 
Course Format: In-person  
Course Location: 1302 Everitt Laboratory  
Weekly Hours of Expected Student Work, apart from instruction time: Students are expected to spend 10–12 hours outside of class per week. 
Credit hours: 4  
Semesters offered: Fall and Spring

Instructor Information  
Holly Golecki, PhD  
Department of BIOEngineering  
University of Illinois at Urbana-Champaign  
3134 Everitt Laboratory, 1406 Green St. Urbana, IL 61801  
Office phone number: (217) 333-0085  
Email: golecki@illinois.edu  
Office Hours and Location: Tuesdays 11am-12pm in 3134 Everitt or by appointment

Teaching Assistant Information  
TA Names and Contact Info:  
Eliot Bethke (bethke2@illinois.edu)  
Bruno Suarez (bsuare3@illinois.edu)  
TA office hour time: TBD and by appointment  
TA office hour location: 1229 Everitt, Senior Design Lab

Course Learning Objectives  
Upon completion of this course, students should be able to:  
1. Identify, formulate, and analyze complex engineering problems by applying principles of engineering.  
2. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.  
3. Create documentation and presentations to communicate effectively with a range of audiences.  
4. Apply ethical and professional responsibilities in engineering and make informed judgments, with regard for global, economic, environmental, and social contexts.  
5. Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.  
6. Create and apply appropriate experimentation, analysis and interpretation of data using engineering judgment to draw conclusions.  
7. Understand and apply new knowledge as needed, using appropriate learning strategies.

Absence Policies  
• General: Your attendance at all scheduled classes (lecture and team meetings) is mandatory and essential for success in the course. However, circumstances occasionally occur where you may need to miss a class.  
• Planned Absences: If you need to miss class for a religious observance, UIUC athletic commitment, interview or some other legitimate reason, you must make arrangements to make up the missed work a minimum of one week before the absence occurs, otherwise, the absence will be unexcused and you will receive a zero for attendance. Assignments must be turned in early (before the deadline) if you will be absent on the day it is due.
• **Serious Illness/Family Emergency:** If you are seriously ill or experiencing a family emergency and are unable to attend a lecture or a team meeting, inform Dr. Golecki via email. If you need an extension on an assignment due to a serious illness or family emergency, arrangements must be made with Dr. Golecki BEFORE the assignment due date.

The course will follow the policies outlined at the link below:
[https://wiki.illinois.edu/wiki/display/ugadvise/Recommended+Syllabus+and+Course+Policy+Statements](https://wiki.illinois.edu/wiki/display/ugadvise/Recommended+Syllabus+and+Course+Policy+Statements)

**Prerequisites:** BIOE 302 (Modeling Human Physiology), BIOE 303 (Quantitative Physiology Lab), BIOE 414 (Biomedical Instrumentation), BIOE 415 (Biomedical Instrumentation Lab)

**Course Description**
This capstone design course is the culmination of the Bioengineering curriculum. Students will perform market research and explore entrepreneurship in the field of bioengineering resulting in the design of a device or process. Students will practice problem identification and the analysis of solutions for real-world problems from the perspective of value added for end-users. Students will use principles of design, engineering analysis, and customer discovery. This course emphasizes effective teamwork and technical communication, and integrates content related to intellectual property, United States Food and Drug Administration Quality System Regulation and Design Controls, human-centered design, FDA regulation, professionalism, and ethics. The overall goal of the course is to prepare students for careers in bioengineering.

**Learning Management System**
This course uses the Learning Management System Canvas: [https://canvas.illinois.edu/](https://canvas.illinois.edu/)

**Textbook and Reading Materials**
There is no required textbook. Two texts are on reserve at the library as complimentary reading:

**Required Equipment**
Required equipment will be available to students via the senior design lab, room 1229 Everitt lab. No additional purchases are required.

**Required Software**
Assignments may be completed in Word, which can be accessed via Microsoft Office: [https://webstore.illinois.edu/shop/product.aspx?zpid=2816](https://webstore.illinois.edu/shop/product.aspx?zpid=2816)

**Late Assignment Policy**
Late assignments will incur a 10% penalty per day. After 7 days it is at the discretion of the instructor to accept late work or not. Exceptions to this policy will only be made if a student communicates with the instructor at least 24 hours in advance of the original assignment due date.

**Assignments**
All assignments, due dates, instructions, rubrics can be found on the Canvas website.

**Grading Breakdown**
- 60% Projects & Deliverables
- 20% Participation
- 20% Client/Peer Assessment
Final Letter Grades The overall course grade is given on an absolute scale and will not be curved. Concerns about individual assignments or grades should be expressed to the instructor promptly. This course will be assigning +/- letter grades.

- A+ > 97% > A > 93% > A–
- B+ > 87% > B > 83% > B–
- C+ > 77% > C > 73% > C–
- D+ > 67% > D > 63% > D–
- F < 60%

Academic Integrity
The University of Illinois at Urbana-Champaign Student Code should also be considered as a part of this syllabus. Students should pay particular attention to Article 1, Part 4: Academic Integrity. Read the Code at the following URL: http://studentcode.illinois.edu/.

Academic dishonesty may result in a failing grade. Every student is expected to review and abide by the Academic Integrity Policy: https://studentcode.illinois.edu/article1/part4/1-401/. Ignorance is not an excuse for any academic dishonesty. It is your responsibility to read this policy to avoid any misunderstanding. Do not hesitate to ask the instructor(s) if you are ever in doubt about what constitutes plagiarism, cheating, or any other breach of academic integrity.

Family Education Rights and Privacy Act (FERPA)
Any student who has suppressed their directory information pursuant to Family Educational Rights and Privacy Act (FERPA) should self-identify to the instructor to ensure protection of the privacy of their attendance in this course. See http://registrar.illinois.edu/ferpa for more information on FERPA.

Mental Health
Significant stress, mood changes, excessive worry, substance/alcohol misuse or interferences in eating or sleep can have an impact on academic performance, social development, and emotional wellbeing. The University of Illinois offers a variety of confidential services including individual and group counseling, crisis intervention, psychiatric services, and specialized screenings which are covered through the Student Health Fee. If you or someone you know experiences any of the above mental health concerns, it is strongly encouraged to contact or visit any of the University’s resources provided below. Getting help is a smart and courageous thing to do for yourself and for those who care about you.

- Counseling Center (217) 333-3704
- McKinley Health Center (217) 333-2700
- National Suicide Prevention Lifeline (800) 273-8255
- Rosecrance Crisis Line (217) 359-4141 (available 24/7, 365 days a year)

If you are in immediate danger, call 911.

*This statement is approved by the University of Illinois Counseling Center

Community of Care
As members of the Illinois community, we each have a responsibility to express care and concern for one another. If you come across a classmate whose behavior concerns you, whether in regards to their well-being or yours, we encourage you to refer this behavior to the Student Assistance Center (217-333-0050 or http://odos.illinois.edu/community-of-care/referral/). Based on your report, the staff in the Student Assistance Center reaches out to students to make sure they have the support they need to be healthy and safe. Further, as a Community of Care, we want to support you in your overall wellness. We know that students sometimes face challenges that can impact academic performance (examples include mental health concerns, food insecurity, homelessness, personal emergencies). Should you find that you are managing such a challenge and that it is interfering with your coursework, you are encouraged to contact the Student Assistance Center (SAC) in the Office of the Dean of Students for support and referrals to campus and/or community resources.

Students with Disabilities
To obtain disability-related academic adjustments and/or auxiliary aids, students with disabilities must contact the course instructor as soon as possible and provide the instructor with a Letter of Academic Accommodations from Disability Resources and Educational Services (DRES). To ensure that disability-related concerns are properly addressed from the beginning, students with disabilities who require assistance to participate in this class should apply for services with DRES and see the instructor as soon as possible. If you need accommodations for any sort of disability, please speak to me after class, or make an appointment to see me or see me during my office hours. DRES provides students with academic accommodations, access, and support services. To contact DRES, you may visit 1207 S. Oak St., Champaign, call 217-333-1970, e-mail disability@illinois.edu or visit the
DRES website at http://www.disability.illinois.edu/. Here is the direct link to apply for services at DRES, https://www.disability.illinois.edu/applying-services.

Disruptive Behavior
Behavior that persistently or grossly interferes with classroom activities is considered disruptive behavior and may be subject to disciplinary action. Such behavior inhibits other students’ ability to learn and an instructor’s ability to teach. A student responsible for disruptive behavior may be required to leave class pending discussion and resolution of the problem and may be reported to the Office for Student Conflict Resolution (https://conflictresolution.illinois.edu; conflictresolution@illinois.edu; 333-3680) for disciplinary action.

Emergency Response Recommendations
Emergency response recommendations and campus building floor plans can be found at the following website: https://police.illinois.edu/em/run-hide-fight/. I encourage you to review this website within the first 10 days of class.

Religious Observances
Illinois law requires the University to reasonably accommodate its students’ religious beliefs, observances, and practices in regard to admissions, class attendance, and the scheduling of examinations and work requirements. Students should complete the Request for Accommodation for Religious Observances form should any instructors require an absence letter in order to manage the absence. In order to best facilitate planning and communication between students and faculty, students should make requests for absence letters as early as possible in the semester in which the request applies.

Sexual Misconduct Reporting Obligation
The University of Illinois is committed to combating sexual misconduct. Faculty and staff members are required to report any instances of sexual misconduct to the University’s Title IX and Disability Office. In turn, an individual with the Title IX and Disability Office will provide information about rights and options, including accommodations, support services, the campus disciplinary process, and law enforcement options.

A list of the designated University employees who, as counselors, confidential advisors, and medical professionals, do not have this reporting responsibility and can maintain confidentiality, can be found here: wecare.illinois.edu/resources/students/#confidential.

Other information about resources and reporting is available here: wecare.illinois.edu.
