

## Kiln 122

### Turning the System On

- Press the **[ON]** button on the control panel.
- The projector will turn on. You may now select a source.

**Note: The system must be turned on before sources can be selected.**

### Using the Resident PC

- If the resident PC is not already selected, press the **[PC]** button on the control panel.

### Using a Laptop

- Connect your laptop to the free end of the HDMI cable not connected to the input panel.
- Select the **[HDMI]** or **[HDMI 2]** button on the control panel corresponding to the cable used to connect the laptop.

**Note: Depending on your laptop model, you may need an adapter. Adapters can be borrowed on short term loan (4hrs.) from an Engineering IT Help Desk.**

**Note: The input panel on this system has two HDMI ports. One is HDMI and the other is HDMI 2. Ensure the appropriate input is selected.**

*Control Panel*

### Turning the System Off

- Press the **[OFF]** button on the control panel.
- The system will begin cooling and shutting down. This process takes approximately 2-3 minutes.
