Loomis 204

Turning the System On

- Press the [POWER] button on the control panel.

Note: The system must be turned on before sources can be selected.

Using a Laptop

- Connect your laptop to the end of the VGA cable not connected to the either input panels. There is an input panel on the control panel and on the wall to the right of the projector screen.
- Press the [SOURCE] button on the control panel until the appropriate source is selected.

Note: Depending on your laptop model, you may need an adapter. Adapters can be borrowed on short term loan (4hrs.) from an Engineering IT Help Desk.

Turning the System Off

- Press the [POWER] button on the control panel. It will take a minute or two to cool off and shutdown.
