Turning the System On

- Press the **[POWER]** button on the projector remote.

Using a Laptop

- Connect your laptop to the end of the VGA or HDMI cable not connected to the input panel.
- Press the **[COMPUTER 2]** or **[HDMI]** button on the projector corresponding to the cable used to connect the laptop.

Note: The input panel on this system has two VGA ports. One is labeled INPUT and the other is labeled MONITOR. Ensure the VGA cable is plugged into the INPUT port.

Note: Depending on your laptop model, you may need an adapter. Adapters can be borrowed on short term loan (4hrs.) from an Engineering IT Help Desk.

Turning the System Off

- Press the **[POWER]** button twice on the projector. It will take a minute or two to cool off and shutdown.
