

## ECEB 3015

### Turning the System On

- Press the **[Audio/Video On]** or the **[Audio Only]** button to turn on the system.
  - Audio/Video will turn on the projectors.
  - Audio Only will only activate the room's audio equipment.

### Using the Resident PC

- If PC is not already selected, press the **[PC]** button on the control panel.

### Using a Laptop

- Connect your laptop to the free end of the **[HDMI]**, **[USB-C]**, or **[VGA]** cable on the podium.
- Select the corresponding input that you connected to your laptop on the control panel.

**Note: Depending on your laptop model, you may need an adapter. Adapters can be borrowed on short term loan (4hrs.) from an Engineering IT Help Desk.**

### Using the wireless presenting

- Select **[Wireless Presenter]** on the control panel.
- Follow the instructions on the screen.

### Turning the System Off

- Press the **[Shutdown]** button on the top right of the control panel.
- On the confirmation screen, press the **[Power Down]** button.

## Using the ECEB 3015 Conferencing System

The ECEB 3015 classroom conferencing system is built into the room to operate on the **Resident PC** and **Laptops**. If using the conferencing system with your **laptop**, please ensure that the labeled **USB** cord on the podium is plugged into your device and the correct device is selected on the touch screen.

## Using the conference system with Microsoft Teams

- Open a Microsoft Teams invite (if it's not already running), and sign in (if it's not automatic).
- Before you click "Join Now":
  1. Click on **Custom Setup**.
  2. Select the appropriate **Speakers** and **Microphone** for the room – see the devices table below.
  3. Scroll down and select the appropriate primary **Video** device – see the devices table below.
- Or, if you've already joined the meeting:
  - Verify the audio and video settings:
    1. Click the three dots in the top right (above "More"), then select **Settings**.
    2. In the Settings Window, select **Device Settings** from the left menu.
    3. Select the appropriate **Speakers** and **Microphone** for the room – see the devices table below.
    4. Scroll down and select the appropriate primary **Video** device – see the devices table below.

## Using the conference system with Zoom

- Open Zoom and sign in using SSO (Illinois.zoom.us)
- Verify the audio and video settings:
  1. Click on your user icon in the upper right corner of Zoom, then select **Settings**.
  2. In the Settings window, select **Video** from the left menu.
  3. Select the appropriate primary video device for the room – see the device table below.
  4. Ensure that the other video settings match your preferences.
  5. In the Settings window, select **Audio** from the left menu.
  6. Select the appropriate **Speaker** and **Microphone** for the room – see the device table below.
  7. Ensure that the other audio settings match your preferences.
- Place your call or join your meeting.

Camera Device	Speaker Device	Microphone Device
<b>Web Presenter HD</b>	<b>ExtronScalerD (NVIDIA High-Definition Audio) -OR- Extron HDMI (4- HD Audio Driver for Display Audio</b>	<b>TesiraFORTE -OR- Echo Cancelling Speakerphone (TesiraFORTE)</b>
