

MechSE MS and PhD Programs

Mechanical Engineering • Theoretical and Applied Mechanics

IILLINOIS

Mechanical Science & Engineering GRAINGER COLLEGE OF ENGINEERING

HOW DO **YOU** WANT TO CHANGE THE WORLD?

The Department of Mechancial Science and Engineering (MechSE) at Illinois offers world-class graduate education and research opportunities with internationally renowned faculty in Mechanical Engineering and Theoretical and Applied Mechanics. As part of The Grainger College of Engineering, MechSE offers unique and exceptional resources for students to conduct world-changing research.

Our innovation-rich environment and focus on the cutting-edge creates a graduate experience that enables you to push the boundaries of engineering, science, and creativity. Our graduates are leaders and innovators in research, industry, technology, higher education, and public service.

MechSE's graduate programs are consistently ranked among the best in the World.

Strength in Numbers

90% of our incoming MS/PhD track students in Fall 2019 were funded through fellowships, research assistantships, and teaching assistantships, and received full tuition Waivers.

20% of our incoming MS/PhD track students in Fall 2019 were W0Men-8% ahead of the national average for women graduate engineering students.

Degree Programs

- MS in Mechanical Engineering (ME)
- MS in Mechanical Engineering (ME) online
- MS in Theoretical and Applied Mechanics (TAM)
- PhD in Mechanical Engineering (ME)
- PhD in Theoretical and Applied Mechanics (TAM)

Unparalleled Research Opportunities

In MechSE, we have more than 60 full-time faculty who are engaged in groundbreaking, multidisciplinary research in a broad range of areas, many of them centering around:

> **Biomechanics Controls and Dynamics Fluids and Thermal Sciences**

Opportunities to Engage

MechSE offers organizations that allow graduate students to grow professionally, network, serve the community, and have fun. Graduate MechSE Students (GraMS) and Women in MechSE (WIM) are thriving student organizations offering both social and professional development activities. ENVISION (ENgineers Volunteering In STEM educatION) is MechSE's student-run service initiative, with outreach to K-8th graders. MechSE students are also active in national organizations like NSBE, SHPE, and SWE.

Nanomechanics and Nanomanufacturing Solids and Materials
