**Topic:** New Trainings Available

**Date:** December 2021

New Trainings Available

The Division of Research Safety (DRS) and Facilities and Services (F&S) are continuously working to provide our groups up-to-date trainings.

We would like to highlight a few of the newly available trainings and encourage researchers to take these trainings if they are relevant.

- [Nanomaterials Safety](#)
- [Risk Assessment for Research Procedures](#)
- [In-person Occupational Safety and Health Training on select topics (e.g. Elevated Work, Basic Electrical Safety, Personal Fall Protection Systems)](#)

Additionally, we would like to remind you to visit the [DRS'] and [F&S'] websites for a full list of their available trainings.
