

HQAN Hybrid Quantum Architectures and Networks

NSF QLCI-HQAN Industry Internship Program 2021-22

Internship opportunity at [ColdQuanta](#)

ColdQuanta is a partner in the NSF-funded Quantum Leap Challenge Institute ([HQAN](#)), Director Brian DeMarco in Physics at the University of Illinois.

ColdQuanta provides products that enable quantum computers and quantum lab environments. Soon the company will offer high precision clocks and cloud-based quantum computing. In parallel, ColdQuanta is collaborating with customers to develop prototypes for quantum positioning systems, quantum radio frequency receivers, and quantum memory devices.
