Name _____ UIN _____

Western course Non-Western course U.S. Minority course LOTE

¹Rhet 105 is taken the first or second semester of the first year, according to student's UIN. ME 170 is taken the other semester. Rhet 105 is taken in the fall by students with even UIN's and in the spring by students with odd UIN's.

²A total of 6 courses to fulfill general education requirements. Of these, at least one must be a Western, at least one a Non-Western cultures course. For students entering after SU18, at least one a U.S. Minority cultures course is also required. Among the Social Sciences courses, ECON 102 or 103 is required for Mechanical Engineering majors. At least 2 Humanities courses and at least 2 Social Sciences courses must be taken for grades. Students must also complete the Language Other Than English requirement (LOTE). 1st and 2nd level language courses can count as Liberal Education electives and be taken CR/NC. See College of Engineering and University web sites for more information and course lists.

³ME 470 requires credit or concurrent registration in all MechSE courses that are required by number (e.g. TAM 445 and TAM 470). Concurrent registration is limited to 2 courses. ME 470 is taken in the fall by students with even UIN's and in spring by students with odd UIN's.

⁴Secondary Field Elective—12 hr of coherent course work in mechanics or closely related field. See departmental list or propose an alternate set of courses.

⁵[Optional] Three hours of secondary field coursework can be obtained if ME 199 DES or SAE (1 hr) is taken for three consecutive semesters starting no later than the first semester of the sophomore year or second semester for transfer students and approved by advisor. Projects must be technical in nature and a final report that displays technical merit must be submitted to the Undergraduate Programs office at completion.

^FOffered in Fall semester only.

^SOffered in Spring semester only.

CURRICULUM IN ENGINEERING MECHANICS

The curriculum requires 128 hours for graduation.
