

Carle Illinois College of Medicine

Second Look 2024 Event Details

Lunch on Thursday is an opportunity to have informal conversations with Carle Illinois students.

Choose Your Adventure on Thursday offers optional activities you can mix and match. We do highly recommend taking part in the student presentations.

We have invited a few student leaders, a few administrators, and lots of faculty to the **Thursday evening social event**. Come to share food and drinks, but most importantly come to have conversations. This is a great time to get to know each other and to ask questions about Carle Illinois.

Noon hour (90 minutes really) on Friday is your opportunity to explore the many possibilities for lunch.

Problem based learning is a cornerstone of our Foundational Sciences curriculum. We feel experiencing this mode of learning with our Facilitators is important for your decision about Carle Illinois.

Tours of the Sim Center at Everitt Lab and the Anatomy Lab in the Medical Sciences Building are great ways to learn more about our facilities.

Is Carle Illinois right for you? We think so ...

Second Look is designed to help you decide what YOU think.
