Fabrication Account Code Request Form

- Please keep in mind that supplies and consumables cannot be included in the Fab Code Project, and that the project is a fabricated piece of equipment. All items for a fabrication project must be permanently attached. Once the project is completed, all items purchased will need to be verified in person. Once the equipment is verified there will be a property tag issued and affixed.
- The est start date to completion date is for the fabrication build itself not the grant.
- If you have more than one fabricated piece per grant you will need more than one fabricated code.
- All fabricated equipment must stay in its original build for a lifespan of 8 years. If you take it apart this will be considered disposed.
- If you have any questions regarding fabrication, please email strawser@illinois.edu

PROJECT NAME: _____

PURPOSE OF THE PROJECT *(Please explain in detail what this project will do once it is complete.)*:

_____

_____

_____

_____

_____

FOPAL: _____

EST COST *(must be more than $5000, please be as accurate as possible with the estimate)*:

_____

GRAD STUDENT CONTACT: _____

EST START DATE: _____

EST COMPLETION DATE: _____

PROJECT LOCATION: _____

Titled To: _____

Is this an upgrade on an existing fabricated project? _____

If yes, what is the PTAG: _____
